Tang Hall IPS Programme

Employment support for people who have been homeless

Welcome to Tang Hall IPS Programme.

Our purpose is to support the employment of adults who are disadvantaged by homelessness, addiction and complex needs.

We offer job coaching and key working to people who have fallen through the cracks in society and need extra help, specificically those suffering from homelessness, addiction and complex needs.

We also run a series of interventions alongside this programme, focusing on and to encourage expression and creativity in a supportive group environment. This includes various music sessions throughout the week.

Tang Hall Smart CIC and THS Employment have proven track records in the field of education and training. Tang Hall SMART also has an identity as a community music and arts provider.
